

Family quality from Hardy Inside

Press release 24th Sept 2008

Simply called “Shaker”, this clean and traditional design is the ideal family kitchen with neat, geometrical lines and traditional shaker facades. The finish is a structured (matt) lacquer painted door which is actually available in a choice of over 2000 colours!

The doors are adorned by stainless steel effect cup handles and the main work surface is a chunky 75mm postformed laminate. This drops down to a split level solid maple work surface surround for the hob area. The extractor above has inset down-lighting and gives practicality with symmetry to this kitchen area.

Masses of well organised storage is ensured by accessible wall units, full height units including pull-out larders and base units with excellent internal organisation. All this combines to deliver excellent overall ergonomics with spacious areas for cooking, preparation and washing up.

Ideal for meals, homework or just sitting having a coffee is a stylish and modern Hardy Inside table with a framed glass top with edges flush to the base and sturdy square legs.

Shaker is an apt demonstration of Hardy Inside's innate ability to adapt design to situation and application.

Hardy Inside kitchens start at £15,000

2100x800 (8 seats): aluminium table frame 75x75, anodised aluminium finish, lacquered glass table top in 6 colours (white, sea green, linden, cappuccino, sepia brown, nectarine) - £1,164 1270x770 (4 seats): £512
